Re: MB Docket No. 07-198

Dear Secretary Dortch:

I am writing to express my opposition to the practice of big-business broadcasters charging exorbitant fees to TV Cable of Grayson County our local cable providers and causing my cable bill to sky rocket. It is my understanding that local providers are required by federal regulations to carry the broadcaster's signal, but I protest the fact that these broadcasters are charging enormous fees to carry these stations, which causes my cable bill to go up and up.

I would like to request you do something to address this issue immediately. The best course of action would be to immediately abolish this unfair practice and protect the millions of customers across the nation that are being unfairly treated by these big business broadcasters which use your federal regulations to raise my cable bill.

It is in everyone's best interest to stop this practice of using small-town America to line the pockets of money hungry broadcasters. I urge you again to stop allowing the broadcasters to charge these enormous fees and to bring a better sense of fairness to the process.

Thank you,

# TV CABLE

HIGH SPEED INTERNET

Of Grayson County

**IMPORTANT: This information could affect your monthly bill.**  
**Please read and respond.**

Dear Valued Customer,

We are writing today to let you know how much TV Cable of Grayson County values your business, and we work diligently every day to give you the best in entertainment for the best possible price while delivering unparalleled hometown care. Part of that hometown care has been continuing to deliver you the most desired channels while keeping your cable rates from unnecessarily increasing.

We hate increasing your bills. It upsets valued customers like you, and the truth is, we don't see any of that extra money. The increase in your cable bill is due to the higher rates we are being charged by broadcasters and programmers, especially for sports networks. We do everything that we can to absorb these costs to minimize the impact to our customers. Unfortunately in recent years these costs have become so exorbitant that we have no choice but to pass them along.

One of the largest issues that could impact YOUR cable bill cost is *retransmission consent*. We want to provide a short explanation of these issues to give you a better understanding and what they mean to you. Read the back of this letter for detailed information.

Two items are included with this letter: 1) postcard to Honorable Ralph Hall and 2) formatted letter to the FCC. By completing these items and returning them to TV Cable of Grayson County, you will be very helpful in preventing unnecessary price increases.

Return your completed postcard and letter with your monthly payment (by mail or in person). You may also send your postcard directly to Representative Ralph Hall, if you choose to do so. Your information will not be sold.

Thank you, in advance, for your support and understanding of the issue!

Sincerely,

Chuck Davis  
Owner & Operator

## **HOW RETRANSMISSION CONSENT AFFECTS YOUR MONTHLY BILL**

### **RETRANSMISSION CONSENT:**

The U.S. Congress has authorized broadcast stations, such as those that air ABC, NBC, CBS, and FOX programming, to grant or deny permission (provide "consent") for a cable television operator such as TV Cable of Grayson County to "retransmit" the signal to its customers. In order to acquire consent, the owner of the television station will demand some form of compensation from the cable operator, which is typically re-negotiated every three years.

Where retransmission consent gets complicated is when a broadcaster demands that smaller cable operators, like TV Cable of Grayson County, pay an exceptionally higher per-customer fee than other larger operators in the same market. Cable operators who refuse to accept the higher charge (as it frequently would result in higher rates for customers) face retaliation from the broadcaster – dropping the channel from our system, resulting in an inability to provide customers with the channel in question.

In addition, federal rules and regulations hinder our ability to receive broadcast signals from neighboring television markets, even when a neighboring broadcaster is willing to offer the same programming at a more reasonable rate and to allow us to immediately return service to our customers.

TV Cable of Grayson County is entering into retransmission negotiations with several broadcasters later this year.

### **What This Means for You:**

- You may have read about situations in towns across the country when a channel is pulled from a cable system lineup. Cable operators, including TV Cable of Grayson County are taking a stand against discriminatory pricing in retransmission consent to prevent your cable bills from unjustifiably rising so we can continue to deliver quality programming at a value to you, our valued customers.
- If we don't agree to the massive rate increase demanded by broadcasters, TV Cable of Grayson County will allow the channel to be pulled rather than ask you to pay higher cable rates.

Re: MB Docket No. 07-198

Dear Secretary Dortch:

I am writing to express my opposition to the practice of big-business broadcasters charging exorbitant fees to TV Cable of Grayson County our local cable providers and causing my cable bill to sky rocket. It is my understanding that local providers are required by federal regulations to carry the broadcaster's signal, but I protest the fact that these broadcasters are charging enormous fees to carry these stations, which causes my cable bill to go up and up.

I would like to request you do something to address this issue immediately. The best course of action would be to immediately abolish this unfair practice and protect the millions of customers across the nation that are being unfairly treated by these big business broadcasters which use your federal regulations to raise my cable bill.

It is in everyone's best interest to stop this practice of using small-town America to line the pockets of money hungry broadcasters. I urge you again to stop allowing the broadcasters to charge these enormous fees and to bring a better sense of fairness to the process.

Thank you,
